STEEL AWNINGS

The metal awnings above the upper floor doors is our nod to the Bistro style you see walking the streets of Paris. This style is further emphasised through the mouldings and black glazed window frames that provide an added touch of style and elegance.

JULIET BALCONIES

Be transported to a fairytale in the streets of Paris with these Juliet balconies commended from the master suite that is perfectly balance against the home's bright white façade.

CONVERSATION ISLAND BENCH

Island benches can give you the extra work space and storage that you need in your kitchen as well as act as an area to enjoy your morning coffee and croissant. The Amour naturally brings people and stories together, with the oversized kitchen bench.

BRASS FEATURES

Rich, modern metallic finishes such as brass for kitchen handles introduce a hint of opulence to the kitchen. Teamed with dark, inky cabinetry they can make a dramatic statement. Then opt for rich, textured materials such as marble and stone for your benchtops and timber for your flooring, this will continue the glam factor throughout your home.

SHAKER PROFILED DOORS

Shaker style doors have recessed panels displaying a framed profile while being timeless ensuring the kitchen has added dimension. This style is very popular in cities such as Paris where their homes are suited to a more classic look.

FEATURE LIGHTING

Borrowing the distinctive style of modern European elegance, The Amour takes every opportunity to impress. Here, a stunning cluster of pendant lights cascading over a captivating void in a visually enthralling interrelationship of space and natural light.

MARBLE TILES

Dreaming of five-star slumber? Tucked away quietly from the home's noise is your luxurious master suite, featuring an enormous open plan ensuite with full height marble tiling throughout, walk-in robe, centralised freestanding bath and an envious designer jewellery cabinet.

INDOOR OUTDOOR CONNECTIVITY

The Amour blurs the lines between inside and out, thanks to these gorgeous billfold doors with electronic retractable awnings maximising natural light, while offering a seamless transition to the outdoors. A space that connects the living and dining areas that spill outside to the front courtyard and alfresco for effortless entertaining of family and guests.
